COUNCIL ON ENVIRONMENTAL QUALITY  
722 JACKSON PLACE, N. W.  
WASHINGTON, D. C. 20006

April 17, 1979

MEMORANDUM FOR NEPA LIAISONS

SUBJECT: Federal Register Status Report on Agency Implementing  
Procedures under CEQ's NEPA Regulations

This will confirm that on or about May 1, 1979, the Council will publish in the Federal Register a status report on agency implementing procedures which will list those agencies that have published their draft procedures in the Federal Register and those agencies that have not. The purpose of the status report is to assist the public in identifying which agency procedures are available for public review and comment and to inform the public when to expect publication of those agency procedures which have not yet gone to the Federal Register.

Our status report will list agency procedures published in the Federal Register as of Friday April 27th. If your agency (and any of its components) will not have published by that date but will have submitted its procedures to the Federal Register for publication during the following week (April 30-May 4), please provide any of my legal staff (listed below) by COB Monday April 30th with a xerox copy of your agency's (or components') submission so that our status report can reflect these submissions.

Jim Jamieson	395-5750
Foster Knight	395-4616
Bob Nicholas	395-4616

Thank you for your assistance.
